### COURSE CONTENTS:

CISSP® - Certified Information Systems Security Professional

#### The Certification That Inspires Utmost Confidence

If you plan to build a career in information security – one of today's most visible professions – and if you have at least five full years of experience in information security, then the CISSP® credential should be your next career goal.

The CISSP was the first credential in the field of information security, accredited by the ANSI (American National Standards Institute) to ISO (International Standards Organization) Standard 17024:2003. CISSP certification is not only an objective measure of excellence, but a **globally recognized** standard of achievement.

**For your CISSP credential, your professional experience has to be in two or more of these 10 (ISC)<sup>2</sup> CISSP domains:**

- Access Control
- Application Security
- Business Continuity and Disaster Recovery Planning
- Cryptography
- Information Security and Risk Management
- Legal, Regulations, Compliance and Investigations
- Operations Security
- Physical (Environmental) Security
- Security Architecture and Design
- Telecommunications and Network Security
