**Final Certification shall be  
awarded by IMRTC - USA**

**100,000+ Students  
have been Trained**

**since  
1997**

In our current globalized economy and complex supply chains, John Ruskin's adage, "Quality is never an accident. It is always the result of intelligent effort" is even more relevant today than it was on the day he said it. Organizations cannot rely on chance and hope to deliver quality products and services; instead, they must establish a consistent and planned approach for managing quality. With over one million certified organizations worldwide, ISO 9001 remains the world's most well-known standard, which provides organizations with a structured approach for quality management and helps them consistently provide products and services that meet and, where possible, exceed customer requirements.

## What is ISO 9001?

Published initially in 1987, ISO 9001 is the first international management system standard (MSS) that specifies the requirements for the establishment, implementation, operation, maintenance, and continual improvement of a quality management system (QMS) in an organization.

ISO 9001 is based on seven quality management principles and it aims to help organizations be more efficient and improve customer satisfaction. A common misconception is that ISO 9001 is intended for larger companies and manufacturers. However, the requirements of ISO 9001 are generic and applicable to any organization, regardless of its type, size, or the products or services it provides.

Although ISO 9001 was initially published in 1987, it has undergone several revisions in order to keep up with good practices and trends in the business world and ensure continuous suitability. The latest (5th) edition of the standard is titled ISO 9001:2015 Quality Management Systems – Requirements. After running a survey with over 8,000 respondents, in May 2021, the ISO subcommittee for quality systems (ISO/TC 176/SC 2) confirmed that ISO 9001:2015 is still relevant and recommended that it remains unchanged.

**Final Certification shall be  
awarded by IMRTC - USA**

**100,000+ Students  
have been Trained**

**since  
1997**

## **Why is ISO 9001 important for organizations?**

Ever since its initial publication, ISO 9001 has been the most recognized and widely used management system standard. A QMS based on ISO 9001 enables organizations to ensure success in the long term. In addition, a certified QMS provides additional assurance to customers and business associates, which further improves the business of an organization.

Even though ISO 9001 sets the minimum requirements that must be met, it still allows organizations to tailor the QMS to their needs. Thus, organizations should determine their overall context in order to identify issues, constraints, and opportunities that are specific to their context. In addition, they should set objectives and establish processes which contribute to the achievement of those objectives.

A distinct feature of a QMS based on ISO 9001 is that it puts customers first. “Meeting customers’ needs and exceeding their expectations” is engraved in the quality management principles, and is implied continuously on the requirements stated in clauses 4 to 10 of the standard. As such, organizations that implement and establish a QMS based on ISO 9001 will maintain the focus on their customers by continuously identifying their needs and requirements, obtaining feedback from them, and continually improving their products and services to fulfill their needs. This focus on customer satisfaction is one of the key factors that have allowed the ISO 9001 to achieve the landmark status.

Like most of the management system standards, ISO 9001 is structured according to the High-Level Structure (HLS) and shares the common terms and core definitions. This alignment enables an easier integration with other management systems based on standards such as ISO 14001, ISO/IEC 20000-1, ISO/IEC 27001, ISO 22301, etc. Apart from ensuring consistency and reducing costs, integrating several management systems can improve the organization’s ability to successfully address other organizational commitments.

**Final Certification shall be  
awarded by IMRTC - USA**

100,000+ Students  
have been Trained

since  
1997

# Program Syllabus

## COURSE TOPICS:

The structure of the training is as follows:

### ISO 9001 : 2015

1. TERMS AND DEFINITIONS

The performance of students is evaluated through continuous observation of a student's performance in the Diploma – class participation, submission of assignments, quizzes and exercises.

**Final Certification shall be awarded by IMRTC - USA**

100,000+ Students  
have been Trained

since  
1997

The student will be examined through three hourly exams conducted at the midterm and a final exam at the end of the program. Total marks for passing the Diploma will be 60 out of a total of 100.

Students who do not meet the attendance or any other eligibility criteria will not be allowed to appear in the final examination.

The following grading plan will be applicable for the Diploma:

<b>A</b>	<b>87 - 100</b>
<b>B+</b>	<b>81 -86</b>
<b>B</b>	<b>72 - 80</b>
<b>C+</b>	<b>66 - 71</b>
<b>C</b>	<b>60 - 65</b>
<b>F</b>	<b>below 60</b>

**Final Certification shall be  
awarded by IMRTC - USA**

100,000+ Students  
have been Trained

since  
1997

Students who are unable to appear for the final exam are required to submit a written application stating the reason for not appearing for the exam. 3D Educators reserves the right to approve or deny such applications. If approved, the student will be allowed to sit for the exam within one month. Failure to do so, the student will be resubmit the examination fee and sit the future schedule exam. Without passing of the exams no certification will be awarded.

**Final Certification shall be  
awarded by IMRTC - USA**

100,000+ Students  
have been Trained

since  
1997

### **ONLINE LIVE CLASSES FACILITY AVAILABLE**

- Instructor Led Training
- Real Time Presentations
- Interactive Classes
- Complete Notes and Other Stuff shall be provided through our Secure Student Login Member's Area
- For Online Live Classes, you may please download the Admission Form through our website <http://www.3deducators.com>. Fill it properly and attached the required document along with Picture and send back to [info@3deducators.com](mailto:info@3deducators.com) with scanned fee submitted voucher in the bank.
- For Pakistan you may submit the fee at any MCB Branch with the title of "3D EDUCATORS-TRAINERS & CONSULTANTS".
- If you are outside Pakistan then you may transfer via Bank to Bank or any western union, Fast Track, Money Gram or else International Transfer Body.
