FINAL CERTIFICATION SHALL BE AWARDED BY PECB CANADA

Master the Audit of Information Security Management Systems (ISMS) based on ISO/IEC 27001

This intensive course enables the participants to develop an expertise to support an organization in implementing and managing an Information Security Management System as specified in ISO 27001 risk management (based on ISO 27005), risk management plan, implementation, surveillance, reexamination and operation of an ISMS, continuous improvement of information security, management's commitment, follow-up and review as well as an introduction to ISO 27001 audit certification.

In addition, the participant will be able to become proficient in the best practices in the implementation of information security control measures based on the eleven (11) ISO 27002 domains: security policy, organization of information security, asset management, human resources security, physical and environmental security, communications and operations management, access control, information systems acquisition, development and maintenance, information security incident management, business continuity management and compliance.

This training focused on practice falls in line with best practices in project management based on the Project Management Institute (PMI) and the International Project Management Association (IPMA) as well as the ISO 10006 standard, "Quality Control Project Management Guidelines." It is fully compatible with the future ISO 27003 standard (guidelines for the implementation of an ISMS) and ISO 27004 (ISMS measures).

FINAL CERTIFICATION SHALL BE AWARDED BY PECB CANADA

Why should you attend?

ISO/IEC 27001 Lead Auditor training enables you to develop the necessary expertise to perform an Information Security Management System (ISMS) audit by applying widely recognized audit principles, procedures and techniques. During this training course, you will acquire the necessary knowledge and skills to plan and carry out internal and external audits in compliance with ISO 19011 and ISO/IEC 17021-1 certification process.

Based on practical exercises, you will be able to master audit techniques and become competent to manage an audit program, audit team, communication with customers, and conflict resolution.

After acquiring the necessary expertise to perform this audit, you can sit for the exam and apply for a "PECB Certified ISO/IEC 27001 Lead Auditor" credential. By holding a PECB Lead Auditor Certificate, you will demonstrate that you have the capabilities and competencies to audit organizations based on best practices.
